at New York and there is its indebted-

ness. Collections are made through

the banks. The New York banks send

Meanwhile our own local banks can give much relief. Let them refuse to send currency to New York, at least until New York will pay currency on drafts drawn upon admitted balances due them; let our local banks also discount undoubted paper in reasonable mounts to enable wages to be paid and to enable planters to pick their cotton. The money used for such purposes will find its way back to the

banks almost as fast as it is paid out. Unless some such course as this is pursued, the next thirty days promise to be dark ones. The panic now, instead of being the result of accident and misfortunes, seems rather to be a deliberate design of speculators to lower the price of the cotton of the South and the grain of the West. If study. there be no let up in it, and that very speedily, the speculators and the banks marketing the crops is suddenly and

chants insolvent. indicated, they will be doing for their the telegrams informed us that currency was being sent from New York but if any large amount of currency has indeed left that city, it will be difficult to point out its stopping place by any good effect it has accomplished.
